

## Grasscrete on The Green

Parishioners have complained about the area of parking below for many years as it had numerous pot holes and was very muddy. When Dalston Parish Council asked highways to repair the pot holes they filled them in with gravel from time to time. However this gets washed out and the pot holes soon return.

After a few meetings with the highways department in 2018 and 2019 they very kindly agreed to lay grasscrete along a large stretch of The Green. This will enable better parking for both The Victory Hall and the Methodist Church users when they have a lot of people attending events.

Dalston Parish Council bought and erected notices to put along the refurbished area.
