Dear Resident

Carlisle Southern Link Road – Upcoming works in your area

We are writing to inform you that over the next few weeks, you will notice our teams in your area, carrying out the advanced works to enable the start of the construction of the Carlisle Southern Link Road (CSLR) in April 2022. Initially, the works will include tree and vegetation removal, erection of fencing and some ground investigation works.

We do not anticipate the activity in your area causing any significant disruption or excessive noise, but we wanted to ensure you were aware of the works and that they form part of the CSLR project.

The CSLR will connect Junction 42 of the M6 with the A595 at Newby West. The new road, which is due to be completed in Spring 2024 will improve connectivity between East and West Cumbria, reduce congestion through the city centre, provide safe cycling and walking links and enable the delivery of Carlisle City Council's St Cuthbert's Garden Village.

If you do have any questions or concerns, please, in the first instance, check the website for updates at www.cumbria.gov.uk/cslr.

Alternatively, you can raise an enquiry via the council's website: cumbria.gov.uk/highways or call the Highways Hotline on: **0300 303 2992**.

Yours faithfully,

Alan Bingham
CSLR Project Director
