

Flag Pole

The position of the flag in the churchyard was such that the flag could not fly correctly as it was getting caught in the tree branches. It was proposed to move the flag pole from the churchyard onto the green outside the Co-op to be more easily seen. Keith Potter of PMS Fabrications Limited on Burgh Road Industrial Estate, who used to live in Dalston very kindly moved the flag pole for us. The Cumbrian flag was put up in October 2019.

It was then proposed to have a flag pole in the churchyard in a place such that the flag would be able to fly without any hindrance.
